

Comprehensive County Criminal Search

ScreeningONE's Standard County Criminal Searches are typically done at the general jurisdiction court level via a public access terminal or directly from the court clerk. Some counties file misdemeanors in separate physical locations from the felonies. And these municipal, justice and lower county jurisdiction courts can sometimes be located miles apart.

In cases where misdemeanors are housed separately, ScreeningONE's *Comprehensive County Criminal Search* will allow you to receive all misdemeanor records regardless of where they are located. This expanded misdemeanor search offers a more comprehensive criminal history. ScreeningONE searches the additional misdemeanor courts as necessary and retrieves ALL felony and misdemeanor records within that jurisdiction for the past 7 or 10 years. ScreeningONE's Comprehensive County Criminal Search provides you with the most complete criminal record report available.
