### **ScreeningOne Announces Strategic Partnership with Employers Group.**

June 12, 2006, Torrance, CA - ScreeningOne, a nationwide provider of pre-employment background screening services announced today their strategic partnership with Employers Group, an effective ally for California businesses for 110 years. The Association is dedicated to helping California companies maximize the efficiency of their workforce by providing expert human resource information and counsel.

“The addition of ScreeningOne’s web based pre-employment screening solutions as a service to our members enables us to better address the growing challenges California businesses face today in the global marketplace,” said Bill Dahlman, President and CEO of Employers Group

Employers Group will add ScreeningOne’s web based pre-employment screening solution to their comprehensive suite of services. Together, ScreeningOne and Employers Group will offer pre-employment background screening services to thousands of companies throughout the state of California. ScreeningOne currently services the information needs of over 4,000 customers nationwide. ScreeningOne’s web-based background screening service enables clients to conveniently request background checks, view progress, retrieve completed reports and securely archive reports online. ScreeningOne’s services are designed to provide necessary information to help employers uncover security and safety concerns before they become issues for their organization. “We are very excited about our strategic partnership with an organization such as the Employers Group. We are committed to providing their clients with timely, accurate and complete background screening services,” said Matt Briggs, President of ScreeningOne.
